A. Forward

Sir, I expressly state that I do not wish to seek monetary or administrative penalties on you.

It is unfortunate that current structure of penalties of RTI has reduced the RTI process to a contest of legal intellect between a citizen and CPIO of a Public Authority, whereby each try to outwit each other.

This defeats the purpose of RTI act.
Respected Sir, CPIO are supposed to help Citizens of country to seek the information required by them, they are supposed to go beyond the "Administrative convenience" of the department and perform the "quasi-judicial" role, under the RTI Act 2005, with due diligence, following the principles of natural justice and respecting the RTI Act in letter and spirit.

I would request you to proactively assist me in providing information as specified under Section 5 (3) of RTI act.
